-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Arguments

Applicant's arguments, see Appeal Brief, filed 12-15-05, with respect to claims 1-20 have been fully considered and are persuasive. The final rejection of 7-11-05 has been withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With respect to claim 20, it is unclear as to what structure constitutes the "yoke". Note that it appears that only element 42 in the specification has been referred to as a "yoke". If there is no "yoke" of the foothold device disclosed in the specification, then that feature must be canceled from the claims. Note, that there is also no reference numeral "106" in the drawings, if the applicant is attempting to recite the U-shaped clamping member instead of the yoke. Correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5-9, 11, 13-15, and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Woller #5,971,104. Woller, as recited in column 7, lines 26-47, discloses a pair of foot engaging members/straps (stirrups) 96, secured to support members/arms 74 of platform assembly 26, 70, by means of fasteners, i.e., at a mounting portion, the straps having a curved configuration (front and tail) depending toward the platform 26, the straps also being made of stiff/*rigid* materials causing them to stand up and fabricated from synthetic polymers, i.e., a wide array of plastics.

Allowable Subject Matter

Claims 10 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The primary reason for the allowable subject matter of claim 10 is the inclusion of clamping portions attached to the support arms. For claim 16, it is the inclusion of the devices attached to the support arms and extending toward the platform.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hugh B. Thompson II whose telephone number is (571) 272-6837. The examiner can normally be reached on Monday thru Friday 9 am to 5:30pm.
